Please return with your next electric bill payment or mail to Carroll County REMC, P. O. Box 298, Delphi, IN 46923.

SEE NEXT PAGE FOR INFORMATION ON OPERATION ROUNDUP.

Operation Round Up

Carroll County REMC will be giving customers an opportunity to help the community where they live — and it barely requires lifting a finger.

The program is called Operation Round Up and it involves Carroll County REMC customers putting their nickels and dimes to work each month for the good of their community.

This is a voluntary program. Customers who volunteer for the program will have their electric bills rounded up to the next dollar each month. For example, rather than paying \$61.75, you would pay an even \$62, with the extra 25 cents going into the Operation Round Up fund.

The idea for this program came from several meetings that were held to determine which programs would make the highest positive impact to our cooperative and for the communities and individuals served by Carroll County REMC. Due to our company's commitment as a Touchstone Energy Cooperative, that stresses community involvement, Operation Round Up was proposed to make Carroll County REMC more visible in our communities. This idea was presented to the Carroll County REMC board of directors who approved our participation. Currently over 200 electric cooperatives nationwide run the Operation Round Up program.

As you can see, this becomes your program, belonging to all of you, as customers of Carroll County REMC. We simply provide the vehicle for organizing this effort. To help you understand the program here are some frequently asked questions.

Q: What is Operation Round Up?

A: Operation Round Up was originally started at Palmetto Electric Cooperative in Hilton Head, S.C. It was designed to gather voluntary contributions from members to assist people or organizations in the communities served by the cooperative with medical care or equipment, food, clothing, housing, etc.

Q: How does this program work?

A: Each month, members who wish to participate will allow Carroll County REMC to automatically round up their electric bills to the next highest dollar. For example, if a member's electric bill is \$61.75, the bill would automatically be rounded up to \$62 — the extra 25 cents would be put in the Carroll County REMC Community Fund.

A board of trustees appointed by the Carroll County REMC board of directors will oversee this fund. This will assure equal representation from across our service territory. That 25 cents doesn't sound like much, but if all 7,000 members of Carroll County REMC

participated and all members averaged \$6 per year in donations that's \$42,000 raised in a year's time.

Think about how that sum of money could be used to help an organization or individual in need. All for just few cents a month.

Q: Who will be eligible to receive these funds?

A: Any person or organization in the Carroll County REMC service territory is eligible to apply for these funds. It is not necessary for those applying to be members of Carroll County REMC.

Applications, which will be at the REMC office, will be given to the board of trustees who will evaluate the applications and determine where the funds should go.

Q: What are the possible uses of this fund?

A: Projects that Operation Round Up can help with include community service projects, education, medical care and equipment, food, clothing, housing and other needed services. Examples could include a heating system for a poor family, help with medical care expenses for an invalid, or providing school clothing for children. Another example could be medical equipment for a local rescue or ambulance service.

Q: Will this money be used to pay delinquent bills or help the campaigns of elected officials?

A: No. These funds will not be used to pay delinquent electric bills, as there are plenty of other charitable services to help with electric bills. Nor, will these funds be used in any way to support or oppose any political candidate.

Q: What is the board of trustees and what are the duties assigned to the body?

A: The Carroll County REMC Community Fund, Inc., has a board of trustees that was appointed by the Carroll County REMC board of directors. One person from each REMC board district will assure equal representation across the system. The Carroll County REMC Community Fund board will meet quarterly. The primary duty of this board is to evaluate applications made to the fund and determine how to best distribute the money.

Q: What if I don't want to participate in this program?

A: We realize not everyone will be able to or have the desire to participate in this program. Between now and the end of the year you will receive information for Operation Round Up and there will always be an opt-out form that you can complete and return to the Carroll County REMC. This is a voluntary program and all contributions are tax deductible.
